CARBON CONTROL

LinkedIn Interaction & Posts (LIP) Summary

1 Million for 1 Billion (1M1B) Internship | Week 4

Mahir Mavani | *Prem Panchal* | *Piyush Tandale* | *Alliance University*

---

1. About the Project

Carbon Control is a data visualization project developed under the 1M1B internship program. The team built an interactive Tableau dashboard and a live website to make global carbon emissions data accessible and understandable to everyday users — without requiring any technical background.

The project analyzes five countries (India, Germany, Brazil, Canada, and Japan) across three sustainability indicators: carbon emissions, renewable energy share, and fossil fuel dependency.

2. LIP Activity Log

The following table summarizes all LinkedIn Interactions and Posts (LIP) completed by the team during the internship:

#	Activity Type	Description	Platform	Week	LIP Count
1	Project Kickoff Post	Introduced Carbon Control project — problem statement, team, and goals	LinkedIn	Week 1	1
2	Progress Update Post	Shared dataset sourcing from Kaggle and data cleaning process	Tracker	Week 2	1
3	Dashboard Development Post	Showcased Tableau dashboard — charts for emissions, renewable share, fossil fuel dependency	Tracker	Week 3	1
4	Live Website Launch Post	Announced deployment of live website on Netlify with dashboard integration	Tracker	Week 4	1
5	User Testing & Feedback Post	Shared user testing results — 100% users reported improved understanding of carbon emissions	Tracker	Week 4	1

#	Activity Type	Description	Platform	Week	LIP Count
6	Impact & Learnings Post	Reflected on project learnings — green skills, data skills, and professional growth	Tracker	Week 4	1
7	Team Collaboration Post	Highlighted individual contributions — Mahir (Tableau), Prem (Web), Piyush (Data)	LinkedIn	Week 4	1
	TOTAL LIP COUNT			**7**	

3. LIP Count Summary

Category	Details	Count
Total LinkedIn Posts	Project updates, launches, reflections	2 Posts
Weeks Covered	Week 1 through Week 4	5 Weeks
Team Members Posting	Mahir Mavani, Prem Panchal, Piyush Tandale	3 Members
Platforms Used	LinkedIn	1 Platform
FINAL LIP COUNT	**All posts across all weeks**	**7**

4. Key Themes Covered in LIP Engagements

- Carbon emissions awareness and data visualization
- Renewable energy vs fossil fuel dependency trends
- Team collaboration and role-based contributions
- Live product deployment (Tableau Public + Netlify)
- User testing outcomes and feedback analysis
- Green skills and sustainability learning reflections
- 1M1B internship journey and SDG 13 alignment

5. Hashtags Used

#1M1B #SDG13 #GreenSkills #CarbonFootprint #Sustainability #DataVisualization #Tableau #ClimateAction #Netlify #StudentProject #AllianceUniversity #1MillionFor1Billion
